Animosity (all Dwarf and Halfling team-mates): This player is jealous of and dislikes certain other players on their team, as shown in brackets after the name of the Skill on this player's profile. This may be defined by position or race. For example, a Skaven Thrower on an Underworld Denizens team has Animosity (Underworld Goblin Lineman), meaning they suffer Animosity towards any Underworld Goblin Lineman players on their team. Whereas a Skaven Renegade on a Chaos Renegade team has Animosity (all team-mates), meaning they suffer Animosity towards all of their team-mates equally.

When this player wishes to perform a Hand-off action to a team-mate of the type listed, or attempts to perform a Pass action and the target square is occupied by a team-mate of the type listed, this player may refuse to do so. Roll a D6. On a roll of 1, this player refuses to perform the action and their activation comes to an end. Animosity does not extend to Mercenaries or Star Players.

Animosity (all Dwarf and Human team-mates): This player is jealous of and dislikes certain other players on their team, as shown in brackets after the name of the Skill on this player's profile. This may be defined by position or race. For example, a Skaven Thrower on an Underworld Denizens team has Animosity (Underworld Goblin Lineman), meaning they suffer Animosity towards any Underworld Goblin Lineman players on their team. Whereas a Skaven Renegade on a Chaos Renegade team has Animosity (all team-mates), meaning they suffer Animosity towards all of their team-mates equally.

When this player wishes to perform a Hand-off action to a team-mate of the type listed, or attempts to perform a Pass action and the target square is occupied by a team-mate of the type listed, this player may refuse to do so. Roll a D6. On a roll of 1, this player refuses to perform the action and their activation comes to an end. Animosity does not extend to Mercenaries or Star Players.

Arm Bar: If an opposition player Falls Over as the result of failing their Agility test when attempting to Dodge, Jump or Leap out of a square in which they were being Marked by this player, you may apply a +1 modifier to either the Armour roll or Injury roll. This modifier may be applied after the roll has been made and may be applied even if this player is now Prone.

If the opposition player was being Marked by more than one player with this Skill, only one player may use it.

Block: When a Both Down result is applied during a Block action, this player may choose to ignore it and not be Knocked Down.

Brawler: When this player performs a Block action on its own (but not as part of a Blitz action), this player may re-roll a single Both Down result.

Catch: This player may re-roll a failed Agility test when attempting to catch the ball.

Dauntless: When this player performs a Block action (on its own or as part of a Blitz action), if the nominated target has a higher Strength characteristic than this player before counting offensive or defensive assists but after applying any other modifiers, roll a D6 and add this player's Strength characteristic to the result. If the total is higher than the target's Strength characteristic, this player increases their Strength characteristic to be equal to that of the target of the Block action, before counting offensive or defensive assists, for the duration of this Block action.

If this player has another Skill that allows them to perform more than one Block action, such as Frenzy, they must make a Dauntless roll before each separate Block action is performed.

Dodge: Once per team turn, during their activation, this player may re-roll a failed Agility test when attempting to Dodge.

Additionally, this player may choose to use this Skill when they are the target of a Block action and a Stumble result is applied against them.

Frenzy*: Every time this player performs a Block action (on its own or as part of a Blitz action), they must follow-up if the target is pushed back and if they are able. If the target is still Standing after being pushed back, and if this player was able to follow-up, this player must then perform a second Block action against the same target, again following-up if the target is pushed back.

If this player is performing a Blitz action, performing a second Block action will also cost them one square of their Movement Allowance. If this player has no Movement Allowance left to perform a second Block action, they must Rush to do so. If they cannot Rush, they cannot perform a second Block action.

Note that if an opposition player in possession of the ball is pushed back into your End Zone and is still Standing, a touchdown will be scored, ending the drive. In this case, the second Block action is not performed.

A player with this Skill cannot also have the Grab skill.

Guard: When a player performs a Block action (including as part of a Blitz action) this player can offer both offensive and defensive assists regardless of how many opposition players are Marking them.

Kick: If this player is nominated to be the kicking player during a kick-off, you may choose to halve the result of the D6 to determine the number of a squares that the ball deviates, rounding any fractions down.

Leader: A team which has one or more players with this Skill gains a single extra team re-roll, called a Leader re-roll. However, the Leader re-roll can only be used if there is at least one player with this Skill on the pitch (even if the player with this Skill is Prone, Stunned or has lost their Tackle Zone). If all players with this Skill are removed from play before the Leader re-roll is used, it is lost. The Leader re-roll can be carried over into extra time if it is not used, but the team does not receive a new one at the start of extra time. Unlike standard Team Re-rolls, the Leader Re-roll cannot be lost due to a Halfling Master Chef. Otherwise, the Leader re-roll is treated just like a normal team re-roll.

Loner (3+)*: If this player wishes to use a team re-roll, roll a D6. If you roll equal to or higher than the target number shown in brackets, this player may use the team re-roll as normal. Otherwise, the original result stands without being re-rolled but the team re-roll is lost just as if it had been used.

This Trait must still be used if the player is Prone or has lost their Tackle Zone.

Loner (4+)*: If this player wishes to use a team re-roll, roll a D6. If you roll equal to or higher than the target number shown in brackets, this player may use the team re-roll as normal. Otherwise, the original result stands without being re-rolled but the team re-roll is lost just as if it had been used.

This Trait must still be used if the player is Prone or has lost their Tackle Zone.

Mighty Blow (+1): When an opposition player is Knocked Down as the result of a Block action performed by this player (on its own or as part of a Blitz action), you may modify either the Armour roll or Injury roll by the amount shown in brackets. This modifier may be applied after the roll has been made.

This Skill cannot be used with the Stab or Chainsaw traits.

Pass: This player may re-roll a failed Passing Ability test when performing a Pass action.

Right Stuff*: If this player also has a Strength characteristic of 3 or less, they can be thrown by team-mate with the Throw Team-mate skill.

This Trait may still be used if the player is Prone, Stunned, or has lost their Tackle Zone.

Stand Firm: This player may choose not to be pushed back, either as the result of a Block action made against them or by a chain-push. Using this Skill does not prevent an opposition player with Frenzy skill from performing a second Block action if this player is still Standing after the first.

Strong Arm: This player may apply a +1 modifier to any Passing Ability test rolls they make when performing a Throw Team-mate action.

A player that does not have the Throw Team-mate trait cannot have this Skill.

Stunty*: When this player makes an Agility test in order to Dodge, they ignore any -1 modifiers for being Marked in the square they have moved into, unless they also have either Bombardier trait, the Chainsaw trait or the Swoop trait.

However, when an opposition player attempts to interfere with Pass action performed by this player, that player may apply a +1 modifier to their Agility test.

Finally, players with this Trait are more prone to injury. Therefore, when an Injury roll is made against this player, roll 2D6 and consult the Stunty Injury table.

This Trait must still be used if the player is Prone, Stunned, or has lost their Tackle Zone.

Sure Hands: This player may re-roll any failed attempt to pick up the ball. In addition, the Strip Ball skill cannot be used against a player with this Skill.

Tackle: When an active opposition player attempts to Dodge from a square in which they were being Marked by one or more players on your team with this Skill, that player cannot use the Dodge skill.

Additionally, when an opposition player is targeted by a Block action performed by a player with this Skill, that player cannot use the Dodge skill if a Stumble result is applied against them.

Take Root*: When this player is activated, even if they are Prone or have lost their Tackle Zone, immediately after declaring the action they will perform but before performing the action, roll a D6:

1. On a roll of 1, this player becomes 'Rooted':
 - A Rooted player cannot move from the square they currently occupy for any reason, voluntarily or otherwise, until the end of this drive, or until they are Knocked Down or Placed Prone.
 - A Rooted player may perform any action available to them provided they can do so without moving. For example, a Rooted player may perform a Pass action but may not move before making the pass, and so on.
2. On a roll of 2+, this player continues their activation as normal

If you declared that this player would perform any action that includes movement (Pass, Hand-off, Blitz or Foul) prior to them becoming Rooted, they may complete the action if possible. If they cannot, the action is considered to have been performed and no other player on your team may perform the same action this team turn.

Thick Skull: When an Injury roll is made against this player (even if this player is Prone, Stunned or has lost their Tackle Zone), they can only be KO'd on a roll of 9, and will treat a roll of 8 as Stunned result. If this player also has the Stunty trait, they can only be KO'd on a roll of 8, and will treat a roll of 7 as a Stunned result. All other results are unaffected.

Throw Team-mate: If this player also has a Strength characteristic of 5 or more, they may perform a Throw Team-mate action, allowing them to throw a team-mate with the Right Stuff trait.

Timm-ber!: If this player has a Movement Allowance of 2 or less, apply a +1 modifier to the dice roll when they attempt to stand up for each Open, Standing team-mate they are currently adjacent to. A natural 1 is always a failure, no matter how many team-mates are helping.

This Trait may still be used if the player is Prone or has lost their Tackle Zone.

Wrestle: This player may use this Skill when a Both Down result is applied, either when they perform a Block action or when they are the target of a Block action. Instead of applying the Both Down result as normal, and regardless of any other Skill either player may possess, both players are Placed Prone.
